Syfraxing is Sassafraxing.

(Lafayette Dally Sall.) In the early days of civilized life upon he banks of the beautiful Wabash, be fore the invention of chewing gum, nature blazed the path to primitive love making by creating a taste and longing for the pungent and delicious sassafras which grew in sandy dells. The gathering of this seductive root was one of the chief diversions here. They call ed it "sassafrax." Once again we se the force of bad example, for in th course of time the root was known as "syfax."

When Corydon desired to speak apar with Phyllis he invited her to go with him to hunt the "syfax" root, and so the gentle art became, to these our for bears, with humorous nod and wink the custom of "syfaxing."

Perpetual Youth.

Senator Platt of Connecticut has pruced up wonderfully since his marriage, and be it known the Senator is three score and ten. He used to be quite independent in the matter of dress. Trousers might be baggy, coat might fit badly, necktie might be awry—it was al the same to Platt. Now all is changed Platt is rejuvenated, new editioned. He trips lightly to the capitol with smilng face, when heretofore he was the valking epitome of gruesome indigestion nd his hair is cut and barbered with daily care, his shoes are always shining nd on his hat no flick of dust is al lowed to rest. Even his trousers are creased and—most startling of all—he has donned a necktie which vies with Joseph's coat in all its brilliant hues.
